## KEEP YOUR FAMILY HEALTHY & ACTIVE THIS SEASON

- **Eat healthily:** Take advantage of summer's fruit and veggie bounty and eat the rainbow
- **Drink water:** Water is a natural, healthy, and sugar-free way to stay hydrated during these warmer months
- **Move more:** Kids need at least 60 minutes of physical activity per day, and adults need at least 30 minutes to stay healthy
- **Be food safe:** Regularly washing hands with soap and water is important. It is best practice to separate surfaces while cooking to keep raw seafood, meat, and poultry away from fresh produce
- **Protect from the sun:** Whether you're going for a short walk or spending a day at the beach, be smart and lather up with SPF 30 or higher

## MONEY TIPS FOR TEENAGERS

If you're a teenager, you are in the best position to start good money habits now. You will carry these money habits with you through the rest of your life. Here, we share a few tips for teens:

1. Start a money-saving habit. If you start this habit now, it will always be with you. With every dollar you get, get into the habit of saving a portion of it. Right now is the ideal time to start because you don't have a lot of expenses - the older you get, the harder it will be to save.
2. Track your spending habits. Establish a relationship with our credit union so you are able to track the amount of money you have.
3. Use your student ID to receive discounts. You have the opportunity to receive several discounts by just using your ID: Amazon, tickets to concerts, movies, hotels, and much more.
